Assembly

Step 1: Glide Assembly - Island Style Frame

- a. Assemble a thread-in glide into the insert in each of the four (4) legs.

Step 2: Assemble Seat to Frame

- a. **Note: An expansion spacer is required for table tops wider than 24".**

- b. Align the table angle holes.

- c. Locate the Jupiter Frame Hardware Kit and fasten the two frame halves together using 1/4-20x3/4" bolts and nuts.

Note: Hand tighten nuts and bolts.

- d. Level table angles.

- e. Tighten nuts and bolts using a wrench.

Assembly

Step 3: Assemble Seat to Frame

- a. Locate the Single Seat Hardware Kit.
- b. Position seat on end and insert front hooks.

- c. Position the seat over the frame by tipping the edge of the seat forward and pulling the seat into place.

- d. Attach elbow bolts to front seat hooks and hand tighten 1/4-20 kep nut.

- e. Insert short tongue of rear seat hook into the seat plate. Using a flathead screwdriver pry rear seat hook until it pops into place.

- f. Now that the seat is installed, insert a self-drilling screw into the hole in the rear seat hook. One screw for each rear seat hook. Do not over

Assembly

Step 4: Installing Table Top

- a. Locate the Jupiter Table & Floor Hardware Kit.
- b. Place the table top on the frame.
- c. Position table per drawings below.
- d. Secure the table top from moving while fastening, using (16) #10 x 1.0" screws.

Step 5: Position and Level Booth

- a. Confirm location of booth/frames with the floor plan.
- b. Level booth by adjusting glides.

Assembly

Step 6: Fasten Glides to Floor

- a. Rotate glides to point the mounting hole towards the center of the booth.
- b. With a pencil, mark the hole location on the floor using the holes in the glide.
- c. Turn the glide away 90 degrees from its current position to expose the mark on the floor.
- d. Using a hammer drill and a 1/4" masonry bit, drill a 1 1/4" deep hole on the pencil mark.
- e. Place a plastic anchor in the hole and then rotate glide back so the hole lines up with the plastic anchor in the floor.
- f. Insert a #10 x 1.0" screw through the hole in the glide and secure into the plastic anchor.

Note: Frames must be anchored to the floor to maintain stability and prevent personal injury.

Step 7: Care.

- a. Clean furniture and protect unit until ready for use.
